SKILLS

Tools & Frameworks

- Burp / Metasploit
- Python / Bash
- Linux / Git

Web Application

- SQLi & XSS
- SSRF / XXE / IDOR
- Auth Bypass / API
- Cmd Injection

Network & Active Directory

- Kerberoast / AS-REP
- DCSync / GPO Abuse
- Pivoting / Lat. Move.

Privilege Escalation

- SUID / Sudo / Cron
- Selmpersonate

SOC / Defensive

- Splunk / Elastic
- Wireshark / DFIR

LANGUAGES

- Spanish Native
- English Professional

PROFILE

I specialize in **web application, network and Active Directory penetration testing**, complemented by SOC analysis and defensive security. I cover the full engagement cycle — from reconnaissance and exploitation through to structured reporting tailored for both technical teams and executive decision-makers. My development background allows me to trace vulnerabilities to their root cause and deliver remediation that is precise, actionable and built to last.

EXPERIENCE

Zeroazul

Fullstack Developer & Cybersecurity Analyst

- I conduct web application and network security assessments across multiple client environments.
- I lead incident response efforts — containment, eradication and full service restoration.
- I leverage my development background to trace each vulnerability to its root cause and deliver precise, lasting fixes.

HackerOne

Penetration Tester — Bug Bounty

- I identify and responsibly disclose vulnerabilities across public bug bounty programs on the HackerOne platform.

HTB ACADEMY — EXAM-TRACK PATHS

CPTS

Certified Penetration Testing Specialist

Enterprise pentest methodology, exploitation chains and structured reporting.

✓ PATH COMPLETED · HTB

CDSA

Certified Defensive Security Analyst

SOC operations, SIEM, traffic analysis, DFIR and incident triage.

✓ PATH COMPLETED · HTB

CWEE

Certified Web Exploitation Expert

Advanced web exploitation — chained attacks, logic flaws, complex injection.

✓ PATH COMPLETED · HTB

CJCA

Junior Cybersecurity Analyst Associate

Offensive and defensive foundations, practical cybersecurity workflows.

✓ PATH COMPLETED · HTB
